To whom it concerns:

I want to offer my highest regards to the professionalism and competency of Bryndon Golya and OC Canine Coaching. He has been a valuable resource for our staff and we've had positive ongoing feedback from our clientele who we refer to him for behavior concerns which vary from puppy problems to more complex behavior like aggression and anxiety. It's assuring to know he stays on top of current training trends and encourages his clients to develop better relationships through positive reward based methods.

We have a friendly and efficient relationship and are delighted to refer Bryndon Golya and OC Canine Coaching to our friends and family here at Newport Mesa Animal Hospital.

Regards,

Thomas M. Irwin, DVM
